

**REMARKS**

The foregoing amendments to the specification insert a cross-reference to applicants' PCT and earlier U.S. provisional and French priority applications.

The foregoing amendments to the claims place the claims in form for examination in the United States. Multiple dependent claims have been eliminated and "Use" claims have been converted to method claims. Words such as "general" and "characterised" have been eliminated, and method claims now include at least one active step. Claim 34 has been canceled. Claims 1-33 and 35-43 as amended are presented for examination.

Clearly, no new matter has been added to the application.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.
